Title of the project : WASTE MANAGEMENT IN LABORATORIES

Please give a 10 line summary of your project.

This project mainly focuses on type and amount of waste generated in different laboratories like chemistry, microbiology, biotechnology in various colleges (It is a survey based project). There are many chemicals/media which are drained/discarded as waste, care has to be taken while discarding the hazardous waste. This is a survey based project which will generate the data of waste management in these labs. Based on this we can suggest good practices for waste disposal. This project is in collaboration with Centre for ~~Science~~ Environment Education
